To determine the order in which to list candidates on the ballot, the election officer shall apply the randomized alphabet using: the candidate's surname; for candidates with a surname that has the same spelling, the candidate's given name; if the ballot provides for a ticket or a straight party ticket, the name of the registered political party. In accordance with Utah Code Section 20A-6-305, the Lieutenant Governor's Office conducted the randomization process by using a random alphabet generator utility in the statewide voter database application VISTA (voter information & state tracking application). The randomization was done on Friday, March 16, 2018 in the presence of a witness representing a political party in Utah. All current political parties were invited and notice for this meeting was posted on the Utah Public Notice Website.
